

PERSONAL HIGH LIMIT DISABILITY INSURANCE

Many, if not most of your clients are currently employed persons actively earning a regular paycheck. They depend upon that paycheck to support their families and their extravagant, modest or frugal American lifestyles. Most families would be completely unprepared in the unfortunate case of the disablement of the primary income earner. Whether working full or part time, your clients deserve sufficient, sound financial protection of their incomes. Every employed person, no matter age, occupation or health history, should carry an adequate amount of disability income to maintain that person's customary income flow.

Our goal is to either participate with existing disability policies or provide base coverage in traditionally uninsurable situations to provide our producers' clients with a minimum disability insurance benefit of at least 65% of income regardless of the income level.
