<sup>1</sup> For PlanRight Basic, the death benefit is based on 100% of the face amount (see footnote #2) in the event of accidental death during the first two years. Interest is compounded annually and is accrued on a daily basis from certificate issue date to date of death.

<sup>2</sup> Unearned premium will be added and debt subtracted from the applicable amount in calculating the death benefit. Debt includes each outstanding certificate loan amount and unpaid premium owed during the grace period before lapse.

<sup>3</sup> Certain member benefits are only available to members insured under a certificate with a face amount of \$10,000 or more. Member benefits are non-contractual and are subject to benefit specific eligibility requirements and limitations.

<sup>4</sup> Ratings do not apply on the PlanRight plans.

<sup>5</sup> Death benefit payable is net of the outstanding certificate loan amount(s) (including accrued interest).

## Product Description

PlanRight Whole Life Insurance (PlanRight) is a permanent, whole life product which provides a guaranteed, level premium and makes use of a simplified application and underwriting process.

PlanRight is designed to help cover final expenses such as the costs associated with funeral and burial expenses, probate fees, or other financial obligations that an Applicant's family may face in the event of death.

PlanRight offers three plan options:

- PlanRight Preferred: the death benefit is based on<sup>6</sup> 100% of the face amount in effect and has the lowest premium of the three plans.
- PlanRight Standard: the death benefit is based on<sup>6</sup> 100% of the face amount in effect.
- PlanRight Basic: has a limited death benefit in the first two years which is based on<sup>6</sup> the return of premiums paid plus 10% interest<sup>7</sup>. From year three onward, the death benefit is based on<sup>6</sup> 100% of the face amount in effect.
