

Turn \$200,000 Into \$832,000 for Your Client and Their Loved Ones

Discover BeneBoosterSM, the enhanced death benefit that increases the amount payable to beneficiaries by 25%* of the lifetime contract gains—even if that money has already been withdrawn!

Great for clients who want to **leave a substantial legacy to loved ones** and:

- ✔ **Have qualified money and need to take RMDs or want income without an income rider.**
- ✔ **Don't want to pay for an enhanced death benefit.**

Ask us about the BeneBooster enhanced death benefit rider, included with FutureMarkSM fixed indexed annuities at no additional cost and with no underwriting or waiting period.

*Hypothetical Example:***

Age 60: \$200K Premium

Ages 70–90: \$462K Withdrawn (\$22K Annually)

+ \$370K Enhanced Death Benefit at age 90

= \$832K Total Paid Out

* 25% for issue ages 0–75; 15% for issue ages 76–85.

** HYPOTHETICAL EXAMPLE assumes \$200,000 premium in FutureMark 10 allocated in the Two-Year SG Columbia Adaptive Risk Allocation Index Point-to-Point With 115% Participation Rate. Rate effective December 29, 2019, and subject to change. Keep in mind that past performance is no guarantee of future results. Any such example must not be regarded as guaranteed or as an estimate of future performance, unless it is based solely on the minimum guaranteed interest rates. Strategy may not be available in all states. Results prior to the Index's actual existence are simulated and based on back-testing. The results obtained from such back-testing should not be considered indicative of the actual results that might be obtained from an investment in the Index. The actual performance of the Index may vary significantly from these results obtained from back-testing.
