

Selection of Life Expectancy Reports

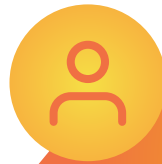

We are the best at selecting which Life Expectancy vendor to use for each particular case. Utilizing our 40+ years of combined life settlement underwriting experience and our proprietary software we are experts at identifying which of our many Life Expectancy vendors will have the shortest Life Expectancy for your case.

The **shorter** the Life Expectancy the **higher** the offer:

Case 1

Male
78 years old
\$1,200,000 of coverage
Life Expectancy = 62 months
Offer = \$660,000

Case 2

Male
78 years old
\$1,200,000 of coverage
Life Expectancy = 73 months
Offer = \$557,000

*Clients were in very similar health and the policies were sold in the same time period but utilized different Life Expectancy vendors.

That's a \$103,000 higher sale price!
